

Risk Control

PrepWise+[®]

Working in close collaboration with underwriters and agents, CNA Risk Control offers a proven long-term approach to risk management that anticipates our clients' evolving needs.

Our new interactive platform, PrepWise+[®], serves as a single hub where policyholders, agents, underwriters and Risk Control professionals can come together to quickly access and share information. PrepWise+ makes it easier for policyholders to respond to our recommendations digitally, streamlining your risk control needs.

Key Benefits

- **Easier to do business** with our Risk Control team, underwriters and agents, thanks to our enhanced workflow and system capabilities
- **More efficient risk assessment findings**, tailored to the needs of your organization
- **Enhanced benchmarking capability** across industries as a result of the improved risk assessment
- **Greater transparency into the risk control process** through the creation of on-demand client reports and recommendations for onsite risk assessments documenting core risk information, including site visit photographs.
- **Convenient digital response to risk recommendations** with PrepWise+ through follow-up emails allowing policyholder contacts, along with agents and brokers to:
 - Review recommendation details and commentary
 - Add notes and attachments, including photos
 - Update recommendations

A client portal will be added in the future to give policyholders further access to our convenient resources and services.
