

Risk Control

Matrix Clinical Solutions

Helping keep workers safe during the pandemic

Matrix Clinical Solutions, a Matrix Medical Network company, delivers a range of workplace health solutions to help workers stay healthy and businesses remain productive, including onsite clinical support, workplace certification, vaccine deployment and laboratory diagnostics. Their clinical solutions consultants will partner with CNA policyholders to design custom solutions that allow their business and employees to thrive.

Occupational Health Services

- Drug & Alcohol Testing
- Physical Examinations
- Return to Work Management
- Functional Assessments
- Pulmonary Function
- Respirator Fit Testing
- Audiograms

Physical Therapy Services

- Therapeutic Exercise and Conditioning
- Worksite Stretching & Exercise Programs
- Work Conditioning/Work Hardening

Managing COVID-19 exposures

Matrix Clinical Solutions provides support in managing workplace COVID-19 exposures, including:

- Certification of COVID-19 related controls (facilities, procedures and best practices), available to CNA policyholders at a significantly discounted price
- COVID testing and vaccinations
- The new Healthy Enterprise Initiative program, designed to support businesses as they reopen after the COVID-19 pandemic.

Additional offerings include:

Matrix Worksite Health delivers comprehensive primary, preventive, urgent and occupational care through Matrix's network of approximately 5,000 clinicians and fleet of Mobile Health Clinics.

Safety Verified Certification provides environmental health assessments to verify that facilities and processes are safe to establish and sustain healthy, safe and productive workplaces.

Special pricing is available to CNA policyholders. Contact Matrix Clinical Solutions at matrixmedicalnetwork.com/contact or 877-564-3627 for more information.
