

## Risk Control

# Virtual Capabilities and Digital Solutions

Maximizing flexibility and convenience for policyholders, our innovative virtual resources can help insureds save time and mitigate risk by identifying and addressing hidden exposures.

### Virtual Risk Assessments & Consulting Services

Our Risk Control team is available to meet with you by video conference, providing risk assessments and virtual services including assistance with safety program reviews, ergonomic and jobsite assessments, and safety leadership training.

### CNA's School of Risk Control Excellence® (SORCE®)

Our world-class learning and development resources can help minimize exposures and complement risk management practices. Connect with industry leaders during live webinars, or access our suite of virtual training via the [SORCE® On Demand](#) platform.

### PrepWise+

This online hub allows policyholders, agents, underwriters and Risk Control professionals to quickly access and share information – making it easier for insureds to respond to our recommendations and streamline their risk control needs.

### Self-Reporting Technology

Receive a virtual evaluation of your facility by simply sending photos to your Risk Control professional.

### eRiskHub®

Defending against cyber threats requires the right cybercrime mitigation tactics and attack response recommendations. CNA cyber policyholders receive access to eRiskHub®, an online web portal powered by NetDiligence®, loaded with tools and resources to help them understand their exposures, respond effectively and minimize the effects of a breach on their organizations.

### Beyond HR®

CNA's management liability Risk Control platform offers trackable online training for our employment practices liability policyholders on topics such as preventing discrimination, harassment, retaliation and wrongful termination.
